

*Get the most out of your Honeywell  
Advanced Control Applications...*

## AFTER INSTALLATION TRAINING ENHANCES PERFORMANCE

---

Customer Focused Training provides the knowledge and skills necessary to achieve maximum benefits.

**1. User Training** provides key process control and maintenance personnel with the knowledge and skills to maximize control performance.

**2. Operator Training** improves productivity and quality by increasing operator acceptance and usage.

## LEVERAGE THE KNOWLEDGE AND EXPERIENCE OF OUR CONSULTANTS IN YOUR PLANT

---

Our consultants possess a strong background in process control application based on the Honeywell TDC3000 DCS architecture.

Experienced process control engineers facilitate training at your plant on your process to achieve the best results.

Customized process control services and solutions also available.

NFLEXION CONSULTING

CFT™ CUSTOMER  
FOCUSED TRAINING

---

*Innovative Process Control Solutions*

# KEY BENEFITS OF CUSTOMER FOCUSED™ TRAINING

1. Increase operator acceptance and control usage
2. Leverage application specific process control knowledge
3. Provide control engineering and maintenance staff with knowledge necessary to optimize control performance and product quality
4. Get the best value by training up to 6 key personnel in a single class held on-site
5. Hands-on training specific to your process
6. Training manuals provided containing valuable real world application information not found in product manuals

## CLASSES AVAILABLE

---

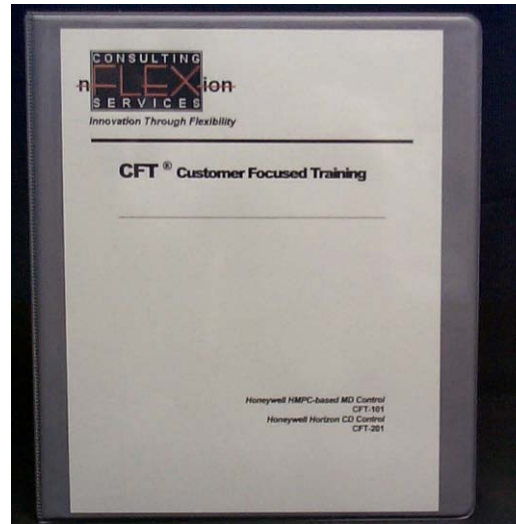

Both operator and user training courses are available.

1. Honeywell HMPC-based MD Control User's Training CFT-101
2. Honeywell HMPC-based MD Control Operator's Training CFT-102
3. Honeywell Horizon CD Control User's Training CFT-201
4. Honeywell Horizon CD Control Operator's Training CFT-202

## TRAINING MANUALS

---

Professionally Written Training Manuals provide application information and procedures in a format that flows logically from start to finish.

## CUSTOMIZED CURRICULUM ENSURES YOUR TRAINING NEEDS ARE FULFILLED

---

**Training is focused** on application features specific to your process. Process modeling, tuning, grade management, and optimization functions are covered.

## TRAINING REPORT PROVIDES INSIGHT INTO YOUR APPLICATION

---

A **concise training report** is provided after the training is completed that details who was trained and what the key focus areas were.

**Known application issues**, if present, are resolved during training sessions and are documented in the training report.

**Recommendations are included** in the training report to point out ways to improve the performance of the advanced control application specific to your process.

## EXCEPTIONAL VALUE

---

Contact nFLEXion Consulting Services today to talk to a consultant about your training needs.
